COURSE OVERVIEW

This course covers migrating from SharePoint 2013 to SharePoint 2019, beginning with migration options, prerequisites and hardware and software requirements. It then addresses pre-migration steps such as checking custom solutions, upgrading to SP1, switching to claims-based authentication and upgrading SQL Server. It compares cutover and hybrid migration approaches, including their stages, advantages and disadvantages, and covers post-migration steps such as testing, backup, workflow and customisation. Practical demonstrations cover SharePoint version upgrade and SQL database upgrade or migration.
