

KOENIG SOLUTIONS • COURSE OUTLINE

Warehouse Management in Microsoft Dynamics 365 for Finance and Operations

Learn to configure and operate warehouse management in Microsoft Dynamics 365, from layout and setup to picking, shipping and replenishment.

COURSE OVERVIEW

This course covers the configuration of warehouse and product setup, warehouse layout, reservation hierarchies, and location directives with work templates, along with mobile device setup. It then addresses inbound processes such as purchase order receipts and put away, followed by outbound processes including sales order picking, shipping, cluster picking, and manual packing and containerization. Further topics cover cycle counting, replenishment, transfer orders, cross-docking, and the use of warehouse management within manufacturing.
