Artificial Intelligence in Power Platform

Learn to build, train and deploy AI models in Power Platform using AI Builder across Power Automate and Power Apps.

COURSE OVERVIEW

This course introduces Power Platform and AI Builder, covering licensing and the process of building, training, publishing and using AI models. It examines prebuilt and custom AI models, including bringing in an Azure Machine Learning model. It then explains how AI Builder integrates with Power Automate through prebuilt models, custom models and the Predict action, and with Power Apps across canvas apps, model-driven apps and Power Pages. The course closes with administration, security and troubleshooting of AI Builder.
