COURSE OVERVIEW

The Power Pages in a Day course is an interactive learning experience designed to introduce participants to the capabilities of Microsoft Power Pages. It's aimed at equipping learners with the skills needed to create and manage professional websites with data integration. In Module 1: Styling Workspace, participants learn to customize the look and feel of their sites by applying Themes and styles. Module 2: Pages Workspace – Site design dives into the practical aspects of building and designing pages. Module 3: Solution Explorer offers insights into managing Site settings and configurations. In Module 4: Data Workspace, learners explore how to handle Data structures and storage. Module 5: Pages Workspace – Data Components covers the Integration of data into web pages. Finally, Module 6: Instructor Lecture/Overview provides a comprehensive recap of all the topics covered. This course is ideal for users looking to leverage Microsoft Power Pages to create data-driven websites, ensuring they can effectively manage content and data with ease.

WHO THIS COURSE IS FOR

The “Power Pages in a Day” course by Koenig Solutions is tailored for professionals looking to master website development using Power Pages. Target Audience for “Power Pages in a Day” course:

Web Developers seeking to leverage Power Pages for site design

IT Professionals aspiring to add Power Pages to their skillset

Business Analysts interested in understanding data components within Power Pages
