

KOENIG SOLUTIONS • COURSE OUTLINE

Microsoft Intune & Copilot for Security

Learn to manage devices and applications with Microsoft Intune and integrate Microsoft Copilot for Security for enhanced endpoint protection.

1 Day

DURATION

3

MODULES

21

TOPICS

COURSE OVERVIEW

This course covers the core features of Microsoft Intune, including device management, application security, compliance integration, and deployment strategies for unified device management. It then introduces Microsoft Copilot for Security, covering its features, standalone and embedded experiences, deployment, prompt creation, promptbooks, and responsible AI principles. Finally, it examines how to optimise Microsoft Intune alongside Microsoft Copilot for Security, covering device naming conventions, group management, authentication and role assignment, and the creation of custom prompts for both tools.

WHO THIS COURSE IS FOR

Endpoint Administrators

Security Administrators

IT Administrators

Security Analysts

Device Management Specialists

LEARNING OBJECTIVES

- Explain the core features of Microsoft Intune
- Configure device management capabilities in Microsoft Intune
- Secure and manage applications with Microsoft Intune
- Apply security and compliance integration within Microsoft Intune
- Describe the features and use cases of Microsoft Copilot for Security
- Deploy and set up Microsoft Copilot for Security
- Create effective prompts and promptbooks in Microsoft Copilot for Security
- Integrate Microsoft Copilot for Security with Microsoft Intune

3 Modules, 21 Topics

01

Discover Microsoft Intune Essentials

TOPICS

- The core features of Microsoft Intune
- Microsoft Intune's device management capabilities
- Securing and managing applications with Microsoft Intune
- Integrating security and compliance with Microsoft Intune
- Optimizing deployment strategies with Microsoft Intune
- Unified device management with Microsoft Intune

02

Unlock Insights with Microsoft Copilot for Security

TOPICS

- **Explore Microsoft Copilot for Security:** Features, Integration, and use cases
- Explore the functionality and integration of Microsoft Copilot for Security
- **Understand Microsoft Copilot for Security:** Standalone and embedded experiences
- Deploy and set up Microsoft Copilot for Security
- Using and Creating Effective Prompts in Microsoft Copilot for Security
- Using Promptbooks in Microsoft Copilot for Security
- Understand Responsible AI Principles in Microsoft Copilot for Security

03

Optimize Microsoft Intune for Microsoft Copilot for Security Integration

TOPICS

- Microsoft Copilot for Security and Intune for Enhanced Endpoint Management and Security
- Understand and Implement Effective Device Naming Conventions
- Renaming Devices in Microsoft Intune
- Create and Manage Groups in Microsoft Intune
- Understand Authentication and Role Assignment in Microsoft Copilot for Security
- Integrate and Use Microsoft Security Copilot with Microsoft Intune
- Create and Use Custom Prompts in Microsoft Security Copilot
- Create and Use Custom Prompts for Microsoft Intune

WHAT IS INCLUDED

Everything You Need to Succeed

- Koenig course material for every module
- Delivery by certified instructors and subject matter experts
- Hands-on exercises throughout the course
- Course completion certificate from Koenig

ABOUT KOENIG

Who We Are

Established in 1993, Koenig Solutions is a globally recognised training provider with 35+ technology partnerships, 5,000+ training programmes and a network of certified instructors and subject matter experts, supporting individuals and enterprise teams worldwide.
