COURSE OVERVIEW

The Adobe InDesign CC course is designed to provide comprehensive InDesign certification training to learners looking to master the software for professional design and layout projects. It covers everything from the basics of Navigating the InDesign workspace to the more complex tasks of Creating interactive PDFs and e-books. Starting with Introducing the Workspace, learners will become familiar with the interface, customize their workspace, and learn the essentials of Document navigation and Panel management. As learners progress through the InDesign training course, they will gain hands-on experience with Setting up documents, Working with pages, objects, and Typography, as well as Incorporating color, styles, and graphics into their designs. The course also tackles advanced topics such as Creating tables, Working with transparency, and Preparing files for print and digital export. By the end of the course, participants will be well-equipped with the skills required for efficient and creative use of InDesign, making them valuable assets in any design or publishing environment.
