KOENIG SOLUTIONS · COURSE OUTLINE

# Anypoint Platform Operations: API Community Manager

Learn to build, customise and publish API communities, then manage APIs and members in Anypoint Platform's API Community Manager.

| 4 | 17 |
|---|---|
| MODULES | TOPICS |

## COURSE OVERVIEW

This course covers creating a community using API Community Manager and Community Builder, including previewing and publishing it across devices. It then addresses customising communities with themes, CSS, Lightning components and CMS content. Attention turns to publishing APIs from Anypoint Exchange to a community, managing version visibility, branding and contracts. The final part covers managing community members, including registration, moderation, forums and visibility rules for APIs.

## WHO THIS COURSE IS FOR

**Community Managers** | **API Managers** | **Platform Administrators** | **Integration Developers**

## LEARNING OBJECTIVES

- Navigate API Community Manager and Community Builder
- Create, preview and publish a community
- Style a community using themes and CSS
- Configure Lightning components for responsive community pages
- Author and organise CMS content within a community
- Publish APIs and API groups from Anypoint Exchange
- Manage API version visibility, branding and contracts
- Configure member registration, moderation and visibility rules

COURSE SYLLABUS

# 4 Modules, 17 Topics

01

## Creating a Community

TOPICS

- Navigate API Community Manager and Community Builder
- Create a community
