Conversational AI: Ensuring Compliance and Mitigating Risks (LFS120)

Gain a deep understanding of Hyperledger Fabric, including how to write smart contracts, manage Chaincode, handle private data; and create Node.js client apps that interact with Fabric networks, controlling access by user identity.

Duration: 4 Hours

Prerequisites for this course

To make the best of this course, you will need:

- Basic understanding of AI principles and conversational technologies

Outline for this course

Chapter 1 – Course Introduction

Chapter 2 – Setting the Stage for Trustworthy Conversational AI

Chapter 3 – Impact and Risks of Conversational AI Technologies

Chapter 4 – EU AI Act

Chapter 5 - NIST AI Risk Management Framework

Chapter 6 - ISO/IEC 42001

Chapter 7 - Operational Risk Mitigation Strategies

Chapter 8 - Synthesis and Conclusions
