

Applications and Features of SAP Integrated Business Planning 4.0

Document Date: March 14, 2016

Note

You can license the following applications of SAP Integrated Business Planning separately:

- SAP Integrated Business Planning for sales and operations
- SAP Integrated Business Planning for supply
- SAP Integrated Business Planning for inventory
- SAP Supply Chain Control Tower

Note that you can only use the features of the applications that you have licensed.

Feature	Details	IBP Applications				IBP Platform
		Sales and Operations	Supply Chain Control Tower	Inventory	Supply ¹	Features that are relevant for every application
Inventory Planning and Optimization	Optimize inventory targets.	-	-	Included	-	-
Multi-Level Supply Planning: S&OP Heuristic	Perform infinite multilevel demand and supply planning to identify capacity bottlenecks and issues with supply.	Included	-	Included	Included	-
Multi-Level Supply Planning: S&OP Optimizer	Perform finite multilevel demand and supply planning to generate a cost-optimized plan.	Included for customers who have licensed the product SAP Sales and Operation Planning 3.0 (or lower) before end of 2014.	-	-	Included	-
