

## **Koenig Solutions, a new era of training in future? Review**

Skill development is one of the essential ingredients for India's future economic growth as the country transforms into a diversified and internationally-competitive economy. Skill development is going to be the defining element in India's growth story. Firstly, we need to re-define the relationship of education, employment and skills development. Secondly, as a very large population, India would never be able to upskill all of its youth across the country through the conventional education framework.

Government alone cannot accomplish this task and therefore lot of institutions/organizations or companies are jumped into this business. Many organizations are trying enhance the skills of professionals, but one company named Koenig Solutions is growing day by day, so we decided to review about this company. For this we had meeting with company marketing head and C.E.O.

So, lets talk about the company.

### **About Koenig Solutions**

Koenig is an authorized training partner of Microsoft, Cisco, Oracle, VMware, Red Hat, SAP®, Novell, EC Council, Adobe, Apple, Autodesk, SCRUMstudy, Check Point, PRINCE2®, PMI, Salesforce, Cloudera, Zend, EMC, Citrix, Android, IIBA, SAS, Linux Professional Institute and CompTIA. Koenig is also authorized testing centre for Kryterion, Prometric, VUE and Novell. Koenig also won 15+ awards and

VMware APJ Learning Partner of the Year 2014 & 2015

Citrix Authorized Learning Centre (CALC) of the Year Award for 2013 & 2014

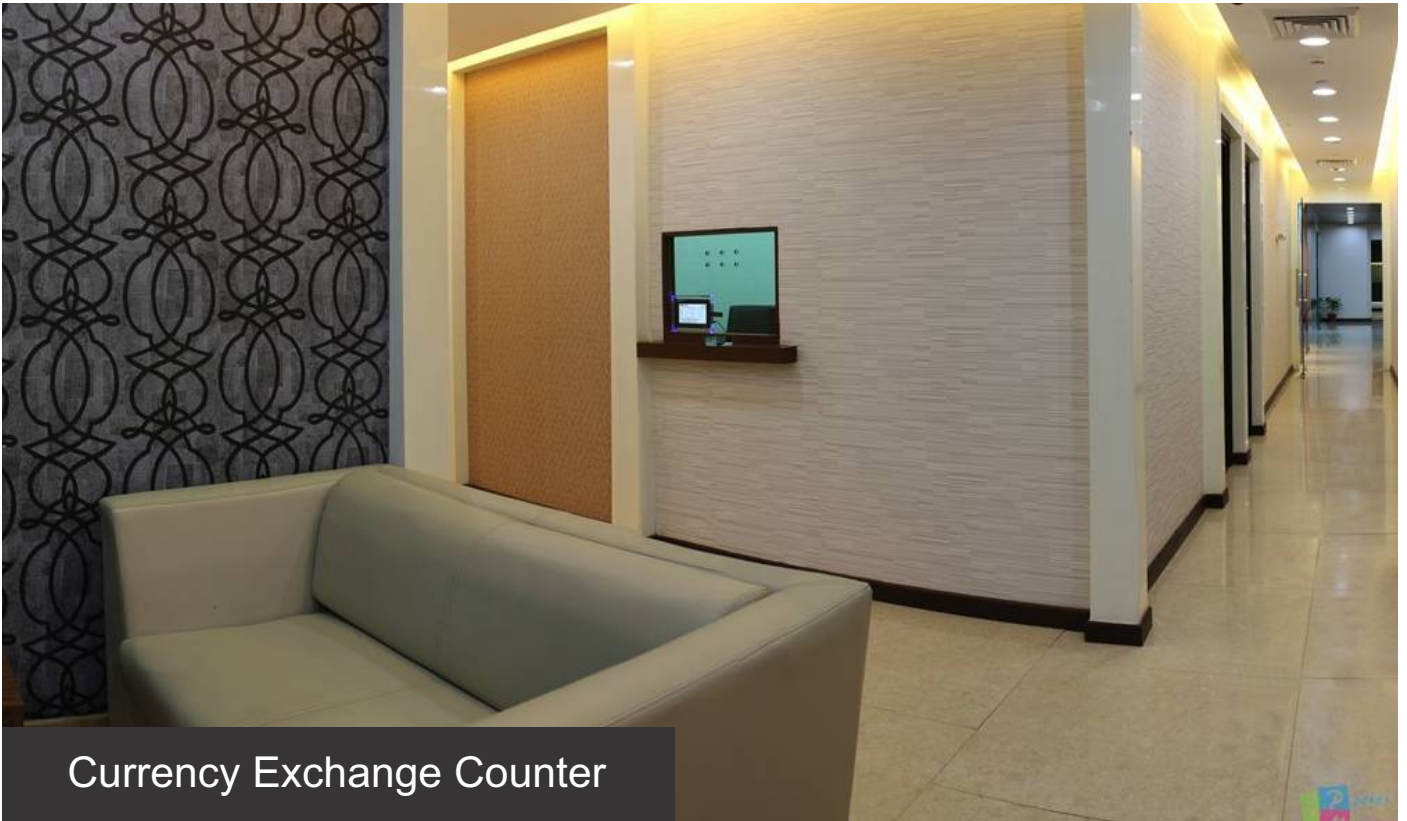

are two of them.

### **Training Quality**

They have more then 300+ trainers, or we should say extreme well knowledgeable trainers and all are highly professionals in their technologies. We met with some trainers and had talk with them, we found them very interesting and well focused towards their objectives. Believe us they are very well trained. Company have trainers for all technologies so that they can train every person in every possible tehcnology. They also provide dedicated trainers to every trainee which is really helpful for trainees to enhance their knowledge more efficiently.

## Infrastructure

They have so many training classrooms where they provide provide trainings, they believe in quality and not quantity. Therefore they have some big classrooms for corporates and rest more than 200+ rooms are small because they always believe in small batch for better communication. They tried to construct all the things in their campus which includes canteen, separate smoking room, and rooms for Muslim brothers to allow them to read Namaz in campus itself.

Currency Exchange Counter

Lab

## **We found some interesting things in their policies:**

They have many international professionals who came to company to do courses and think what they do for them? They take care of everything from airport tickets to drop facility to their campus and for every day. They also provide the Hotels for foreigners so that they don't need to roam here and their. They try to save time, so that they can invest the same in education and not in wasting in roaming here and their. They also have small office which is responsible for currency exchanger where foreigners can exchange the money and again no wasting of time in it. They also provide the food for all time to all trainees. It may happen that yo may get tired, oh yeah you are human, so don't worry, they provide free spa services to their trainees.

They treat every trainee whether he is in course which cost very low and whether he is a member of course with high fees, we like this thing really.

## **Course Prices :**

We found prices little bit high but when it comes to services they are providing with every course, we found them bit ok. They have courses starting from INR 10,000 to INR 3,00,000. They give every service too all trainees of every course. So if you think you can afford, go for it and dont worry about the education quality. they are focusing on corporates for now instead of individuals, therefore the cost is bot high but as individual if you are looking for small courses, you can give a shot.

## **Summary**

If you are looking for institute on which you can trust and nourish your career then koenig would be great choice. they have very well trained trainers and talking about their infrastructure, then the place would be another home for you. You will surely love the place. Price is bit high but comparatively to their services they are quite ok. So if you are thinking to nourish your career, Koenig would be really good choice. you can find more about this their website :
