

Koenig becomes Cloudera connect partner for IT training

Koenig can now offer Cloudera trainings and certifications to its global customer base from more than 60 countries and Fortune 500 companies worldwide.

Koenig Solutions, India's leading offshore IT training company, has become the authorized training partner of Cloudera in India. Koenig can now offer Cloudera trainings and certifications to its global customer base from more than 60 countries and Fortune 500 companies worldwide.

“We are pleased to announce that Koenig is now Cloudera authorized training partner and will provide trainings to customers who need to unlock the value of Big Data. This new partnership will enable Koenig to access valuable resources from Cloudera, and to offer unmatched service around the Apache Hadoop ecosystem,” said Rohit Aggarwal, Chief Executive Officer, Koenig Solutions.

Cloudera is a platform for Big Data and a leading enterprise solution for Apache Hadoop. The courses on offer by Koenig cover topics and skill sets on Cloudera Administrator Training for Apache Hadoop and Cloudera Developer Training for Apache Hadoop.

The company provides Cloudera training with a short course duration of 4 days, through online and classroom modes of learning. Aspirants who wish to work on Cloud and make a future in Big Data technologies, can look forward to these courses as a career launch pad in the IT industry.
