

Koenig launches courses on Android App development

नकली ऐप्स की भरमार

NEW DELHI: Koenig Solutions, an off-shore IT training provider, has launched courses on Android app development.

Targeted at students, professionals and job seekers, the 'Professional Android App Development' course can be completed in 12 days on regular track and nine days on fast track, as per the company. Students can also upgrade to the 'Expert Android App Development' course which would take a further seven days on regular track to complete. On fast track basis, the Expert course will take five days to complete.

On successful completion of the courses, students will receive Koenig participation

Certificates with titles of "Professional Android App Developer" and "Expert Android App Developer".

Rohit Aggarwal, CEO and founder, Koenig Solutions, said, "At Koenig we continuously strive to stay a step ahead of the technology game and ensure that our students and customers can equip themselves with the latest job oriented technology skills in demand globally. In keeping with this objective, this is the second such unique offering from Koenig this year, after we launched the bitcoin course in January. We are confident that these Android courses, being the first of its kind, will elicit an enthusiastic response from all relevant stakeholders."
