

KNOW YOUR CAMPUS

Koenig Solution, Moti Nagar

The institute specialises in providing state-of-the-art technical training and certifications on all popular IT technologies available globally. It provides world class training through several innovative learning methods and delivery models to cater the unique requirements of a global customer base.

What it offers

Over the years, Koenig has been providing IT training to the global workforce from several Fortune 500 companies and governments worldwide. It has over 30 authorisations, including that of Microsoft, Cisco, Oracle, VMware, Red Hat, Novell, EC Council and Adobe, among others. At the same time, they also have 300 certified trainers, who are subject matter experts in their respective fields. They have trained corporates, IT employees and students from countries like Europe, Africa, The Middle East and South East Asia as well as Australia and New Zealand.

The campus

Koenig has six training destination centres including Delhi, Dehradun, Shimla, Goa Beach, Bangalore and Dubai. The Moti Nagar centre is spread over a total area of 18,000 sq ft and includes 70 classrooms and 30 testing stations. Apart from this, they also have a foreign currency exchange counter, a reflexology centre, in-house dining, shopping, medical facilities cafeterias as well as a prayer room for students from Islamic countries. Key features of the Koenig end-to-end solution include accommodation, examination facilities, meals, daily transport, airport pick-up and drop and a Delhi Darshan tour, all included as part of the course fee.

The training

The institute offers different learning choices ~ whether one wants to learn alone or with group, they are open for it. They have different learning modes like classroom training, live virtual classes, fly trainers and a flip classroom. They have 80 classrooms and 30 testing station equipped with modern technology and training standards. Their virtual classroom will let a student learn and gain knowledge from the comfort of one's home or office. In flip classrooms, learning models completely reverse the traditional form of learning. In this model students learn by way of accessing course content at home rather than classroom training and solving problems in the live virtual session.

The vision

Rohit Aggarwal, the founder and CEO of Koenig, while officially inaugurating the first ever Koenig Campus, said, "Our vision is to make India the premiere destination for employability and growth-linked IT education and training while at the same time making IT training a long term, respected and viable career option for Indian youth. Koenig is determined to achieve this by ensuring that our students receive a world class training experience while enrolled with Koenig."
