

## **Leading IT Training Institute Koenig Solutions Introduces Platinum Series Calendar; Adds New Set of Exclusive IT Training Programs to Its Repertoire**

**Improve your technical skills with Koenig's rich array of specialized technical courses in Microsoft, VMware, Cisco, Oracle and EC-Council amongst others**

**Such courses are designed for both working professionals and Add Newd students and will offer unprecedented growth to your careers**

New Delhi, Feb, 2015: Leading IT training institute Koenig Solutions has introduced a new Platinum Series of exclusive and highly specialized IT training programs to its already wide range of IT training and certification programs to help equip its corporate clients with high-end technical skills. The Platinum series was launched in a gala event at Oberoi, Bangalore in the presence of over 100+ IT Partners and esteemed customers on 12th February, 2016.

The Platinum series showcases a vast training calendar of a giant pool of IT technologies thereby facilitating the IT aspirants to take a call on their IT training needs as per their feasible time schedules. Koenig endorses GTR (guarantee-to-run-classes) with its Platinum Series Courses, thus helping the Clients to polish their technical skills without fail.

At Koenig we believe in constantly upgrading our services and courses to make sure they are best suited for the times. IT is a field where new applications and operations are added every day and as a training institute it is our endeavor to provide the latest and most specialized skills to professionals of our corporate clients. We have earned a reputation of being the fastest growing IT provider with state of the art facilities. More than 350+ certified trainers and subject matter experts work here; thus imparting excellent education.

The organization has earned a lot of expertise as far as quality training and services are concerned," said Mr. Subodh Chaudhary – GM – Koenig Solutions.

Koenig has earned unprecedented prestige as a state of the art training and certification provider of different IT technologies. The organization has collaborated with Microsoft as a gold learning partner and aspires to offer trainings for different popular Microsoft certification trainings. Different specializations offered by the organization consist of enterprise application management, Office applications, virtualization, data analysis, database management, business intelligence, application development and others.

Koenig has been providing IT training to a vast global workforce from different Fortune 500 companies and governments the world over. The organization has centers in Delhi, Bangalore, Goa, Shimla, Dehradun and also in Dubai.

Outstation participants don't need to worry as the organization takes care of their stay requirements and also provides accommodation and travel related services.

The IT giant Koenig has gained the position of world leader in offshore IT training. It was also rated the best company to work in Education industry in India when a joint study was conducted by The Economic Times and GPTW India.

Koenig has established itself as the training vendor for over 200 reputed corporates in the country. Its customers relish its excellent services and the organization keeps on attracting new students from all over the globe with its innovative training methodology techniques with over a pool of 350 certified trainers.
