

Koenig Solutions receives authorization as Education Reseller for training programs in Middle East

Leading IT training institute Koenig Solutions is now an authorized provider of training for programs on cloud computing softwares VMWare and Salesforce in the Middle East, expanding its already wide range of IT training and certification programs that it offers to equip its corporate clients and students with high-end technical skills.

Koenig Solutions which runs its Middle East training centre in Dubai has obtained authorization as Education Reseller for training programs on VMWare and Salesforce . The authorization would help Koenig offer an unmatched expertise in virtualization powered by VMware Certifications, helping to gain crucial skills in managing data centers and virtual environments. While, Koenig Solutions was already offering a range of courses as per the demand of IT training in Middle East, the authorization would help to widen horizons and cater better to expectations of new and existing customers in terms of quality and latest courses.

“We have been offering a wide range of courses in Dubai. Our Dubai centre provides an easy access to training on different technologies to professionals from all the nearby Middle East. The authorization has helped us to add to another feather to the cap. While we were already offering customized state-of-art technical IT training, the authorization has helped us to add expertise as far as cloud computing and virtualization services are concerned. would also help us consolidate our reputation as a leading provider of high quality IT education in the region and will further boost enrolment of students from across the Middle east region,” **said Mr Subodh Chaudhary, General Manager, Koenig Solutions.**

Koenig has also partnered with various corporate houses for training in its Dubai centre. With the view to tapping the growing demand for IT services in the region, Koenig Solutions expanded its Dubai centre early last year
